Strength  
hobby

Good morning sir, I am Pranali Sunil Sabale from Satara, I have completed my BTech from Dnyanshree Institute, Satara securing 8.41 CGPA. About my final year project we have done multiple stage security for secure ATM cash withdrawal project. In this we have used face ~~at~~ Recognition and OTP generation techniques to improve security level of ATM's. My technical skills are I am good in SDLC, oops concepts & basic SQL. I am highly responsible to work under deadlines because I think that I am an excellent planner. My hobby is sketching. I love sketching since my childhood, I have sketched many pictures. I have collection of it. Sketching helps me to improve my skills & start thinking in different way. Basically I like fashion sketching, so I have sketched pictures of friends.

From Since my childhood I have habit to make plans & do work according to that

[Did you challenge  
→ Covid 19 lessons.]

\* Did you Face any challenge in life.

Sir/mam recently I have faced challenge in my life, In pandemic my family ~~was~~ <sup>infected</sup> affected by corona virus, including me. That time no one with us, my parents parents grandmother has diabetes she was very serious at that time, So I at that time ~~became~~ <sup>I was</sup> mentally shocked, still I stand strongly, I took care of my family very well, In about 30 days I saw my family recovered. But That moment was challenging for me.

## \* Qualities of Team Leader-

- ① Motivating & inspiring

Leaders are those who can look for challenges. Challenges lead to new ideas and improvements.

Leaders motivates and ~~ins~~ inspire their people or group member by appreciating their efforts, always encouraging the team to deliver the best work that they can. On other hand ~~Also~~ leaders worry about doing the Right things.

As a leader I have helped my group members <sup>to</sup> help each other, ~~as~~ ~~#~~ to achieve project goals. By knowing the abilities or skills of the group members I have distributed the project modules among them.

## \* Covid 19 Lessons -

Due to this covid 19 disease many people losses their life, because of a weak immune system. So I think the most important lesson that we have to learn from this is, we have to take healthy food & avoiding junk food to boost immunity. Coronavirus taught us to focus on healthy eating habits.

Also for poor people water will be most affected by this kind of situat<sup>n</sup>. This pa phase taught us to take immediate steps to protect vulnerable people.

People have to wear mask & they have to use sanitizer for their own safety.

\* Memorable Place what a like in that After pandemic where you want to visit.

Sir / mam My native place is Satara. In satara there is Kass Pathar/~~mountain~~ Valley of flowers. I have visited this place before Pandemic. The place is known for wildflowers & different variety. Govt has spent a lot of resources in fencing and deployment of security to insure the flora is well preserved.

I like in that place ~~is~~ is it's an amazing beautiful place, if it rains it makes it dreamy misty place. If it is clear skies it makes it flower green beautiful place.

\* Non curriculum activities-

In our college every year cultural activities are arranged, In that I have taken part every year. In ~~group~~ dancing, ~~and~~ sports.

\* Role model-

Sorry mam / sir, But my role model is not specific person I ~~can~~ learn things from every person. Even if that person younger than me. I learn good things from them. So my Role model is every person who I met.

## \* How to solve Conflict in Project.

If there ~~is~~ conflict in Project. Then it can be solved by Communication. By communicating properly with each group member, we have to decide <sup>which</sup> what it is the problem, & we have to work on that problem to get feasible sol<sup>n</sup>.

All the group members in the project should have to stay calm, & think ~~carry~~ so that conflict should not happen.

## \* Best memories in School / College.

The ~~my~~ best memorable day in my school life is when I was at 8<sup>th</sup> std that time my school ~~was~~ arranged the ~~best~~ gave me ideal student award, this was my proud moment at that time. The student who is punctual, studious, that student has awarded by this award, So I was very happy It becomes my memorable day in my life.

## Weakness -

It's quite funny to tell. I'm not good in cooking. I cannot make tasty food.  
Even if I cannot able to make tasty tea. This is my a weakness.

Project - About my final year project we have done  
Our final year Project is  
Multiple Stage security for secure  
ATM cash withdrawl.  
In this we have used face detection  
& OTP generation techniques. We have  
done this to improve security level  
for ATMs.

Process of face detection is based  
on 3 steps :-  
1) Data Set collection -  
we collect the images of users for  
storing data in database. The Raspberry  
pi camera capturing 25-30 images in a  
3-4 seconds & it will store in database  
with unique ID. So different people  
has different unique ID's.

2) Data training  $\Rightarrow$  In this step stored  
data is converted into digital form.  
For converting img into digit form.  
Harr Cascade Algorithm used to  
detect the face. It uses binary No of  
3\*3 matrixes to convert img into  
digital form.

3) Face recognize  $\Rightarrow$   
Raspberry pi camera captures the img  
& check whether it is stored in  
the database or not.

## \* Memorable moment in life

When I was at school in 9th standard. At that time I was very enthusiastic about how ride the bike. And also I love all that things. Once I decided to ride a bike I just knew how to ride, how these works. APPERANTLY

That is just to start the bike & give gears. and then race it. ~~by enthusiasm~~  
So ~~I~~ at that time by ~~enthusiasm~~  
start the bike & gave gears & then  
race it.

So At that time by enthusiastically & confidently I started it & gave the gears & instantly gave the race very fast. I collapsed on the ground in fraction of seconds. I didn't have fully knowledge & experience about those things & I tried it. I realized that half knowledge is always dangerous. From that experience

Strengths | I'm excellent at planning & have time management skills.

D) Enthusiastic & can produce results under deadline.

⇒ I like to say that, I am an excellent planner. When I was studying at school, I didn't wait for the exam period to rehearse the lessons to prepare for the exams. I was preparing continuously throughout the year, so when the exams came & other students did not sleep in night, always studying the materials, I didn't have the same problem.

I understand that we will have some deadlines in ~~this~~ the work, and that the workload may be heavy at times. I can assure you that I feel ready to handle it mentally and hope that my excellent planning & time management skills will help me out again.

My achievements are I was Runner up in Kho Kho at District Level. When I was in 9<sup>th</sup> I was first in SSC Board Exam at School. And recently I have done Ethnus training in that also I was top performer. In that they have taken the exams weekly & based on the basis of our scores they have decided selected top performer.

## LTI- Larson & Toubro LTD

LTI does many CSR activities, LTI is providing special education & skills for physically challenged people. Also In pandemic LTI contributed to PM Cares fund (The prime minister's citizen Assistance & Relief in Emergency situations fund) in India & United way worldwide's covid-19 relief fund in the US.

So, LTI has been focusing on creating a positive impact in the areas of Education, people who today have access to better education, better livelihood, better resource management that is making a huge difference to their lives. Also L&T ranked 4<sup>th</sup> in 2021 LinkedIn Top companies list, India.

## Hard work - Smart

Hard work can be simply putting hours or hours for doing certain task.

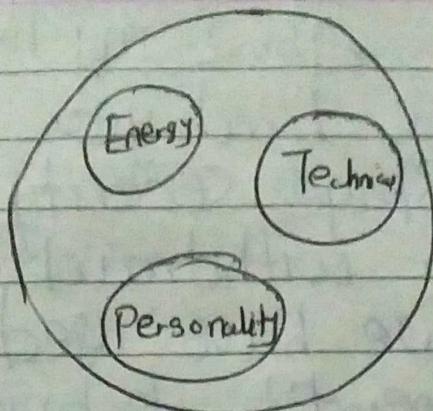

Smart work means easy & efficient way to complete multiple task.

In hardwork we focus on quantity rather than quality.

In smartwork focus on quality as well as quantity.

In hard work we simple simply performing a task , & In smart work we get our job done in efficient way.

# HR Interview

## Dig for Interview -

1) Are you ready to work extra hours / holiday  
Sir / Ma'am, As I'm fresher

I have exposure to understand the technical words, So if I work more ~~in~~ <sup>at</sup> company environment & then it will help me to understand more & I get more experience of work. Sir, I like to work in the project where I ~~have~~ <sup>get</sup> extra work. Because of this I am ready to work extra hours.

2) Are you ready to relocate?

Sir, However I am not from Pune. I'm from Satara. My parents sent me here to make my career and I am career focussed. I have

my family is <sup>not</sup> supportive <sup>so</sup>, I can ready to move anywhere in India.

I have to first build my career.

3) Will you ready to bond?

→ Yes sir, I am ready with bond, As I'm fresher I'm happy for my first opportunity & I'm hungry to learn new technical things. So if company have any problems then also I should not run because every company has problems.

4) What are your strengths & Weaknesses.

→ \* Strength should like you showing highly responsible, self discipline.

\* Weakness ⇒ It should not affect on your hiring process.

① Cooking ⇒ Sir I don't have cooking skills. Every time I cook it becomes ~~annoy~~ <sup>stuff</sup>.

② If someone asks me for help then I cannot say no to anyone.

5) Why should I hire you?

→ / What is the benefit of company.

Sir I'm highly responsible person.

Sir, as I'm a fresher I have theoretical knowledge but I need a platform where I can implement my knowledge in the practical field.

I'm ensuring you that I will put my efforts for the good progress of company. Being punctual & regular, I can finish the work giving to me on time & try my best to fulfill the needs of the company.

6) What are your salary expectations?

As I am fresher, I'm expecting experience no salary. You will give judge me according to that I have guarantee you will give me best package. As average fresher salary.

7) Which is your dream company.

Sir I don't have any dream company. Every IT companies do same work provide same services. So I like to work in company that have belief on me. that should my dream company.

8) What you know about our company?

① Search on google about CSR (Corporate Social Responsibility) activities of company.

② search for vision,

Story behind their name or Story behind their logo.

③ clients ④ Technologies.

9) Hobbies →

Tell hobbies that are talk about your teamwork, Don't tell technical.

11) What is your favourite Subject -

Tell the subject that you have good knowledge about it.

12) Where you see yourself after 5 years / down the line 5 yrs.

I don't know what position I will

Sir, I don't know where I will be after 5 years. I don't know what position I will be carrying. But I promise you I work hard everyday get lot of knowledge If any new challenging project comes up then I will always be ready for that. I will always work on that way. That I can solve technical problems. I will be technically very strong candidate after 5 years. That's I am expecting after 5 years. Trust me sir I don't know what will be position I will be carrying.

13) What is ur Project?

- I First tell problem
- II Research on that
- III Solution u have find (Project).
- IV Execution:
- V What was ur job (Technical tell)  
prepare for 15-20 line of code  
that is what I have used.

13) Short term & Long term goals.

Short Term goal-

Sir from past 6 months my goal at every moment when I eat, sleep, get up to get a job I am preparing everyday ~~no~~ for only this opportunity. This is I am only focussing on job. I am prepared very well from last 6 months to get ~~job~~ platform.

long Term Goals-

~~My long term goal is to visit any country in the ~~world~~ like US,   
 UK, ~~Canada~~, ~~Australia~~ like us,~~

my long term goal is to visit any country in the world like USA bcoz I love travelling. And I want to see how the cultures ~~are~~ are there. ~~are~~

14) If you rejected today, what yo do?

→ Sir sitting here I am very excited because this is my first interview but at the same time let ~~g~~ fear inside. bcoz ~~g~~ this excitement this is my 1<sup>st</sup> interview, I never face any interview in my life. so hear ~~f~~ their I can make lot ~~g~~ mistake please forgive about that If I rejected today you are taking this decision so obviously sir It is right decision

then I will go back home & sit & think about every answer that I have told every question's answer & try to find out what mistake I have done. & make sure if sir next time I will not do the same mistakes again.

15) Do you have questions?

→  
Don't give or ask for feedback,  
Don't say No., Don't ask answers.

If interview is

not good | very good .

Thanking for this  
opportunity, thanks  
for this time.

Sir when I will  
be working here  
what on the  
projects I will be  
working on,  
what technologies  
I will be working  
on. If you guide

me on that I will  
prepare something for that  
before join the company.  
bcz I will read some  
books. & get knowledge

16) Tell me something about yourself.

Introduce

- ① Tell something special about your name.
- 2-5 mins } ② Tell about awards & achievements.  
              ③ why are you diff from others  
              ④ why should hire you (ans).  
              Tell grateful with opportunity.

17) How much you will rate yourself.

eg. Java

→ 6-7 out of 10.

Interview → why do you rate slow?

→ Sir Subjects like Java are ocean. The more you will learn the more will come (like lambda express.) So how can I rate 9 or 10 sir. I just know the core Java, OOPS.

18) Your Quality that not other have.

→ Don't tell any technical quality. Same answer for why should hire you.

19) Did you face any challenge in life.

→ Tell something about you have taken care of your family, you support your family ~~anywhere~~ anywhere or society.

20) Can you work under pressure.

Yes. Sir

21) What motivates you?

22) If you get opportunity ~~than~~ than this company what you will do.

→ Sir this is my first interview that I am attending. ~~first interview~~ & I will wait until getting the results of company my interview. & then I go to the next interview. because I have so much prepared I will wait until results if I get rejected then I will think about other company.
